

The back page... Sunday, 25th July 2010

Tackling poverty and inequality in the UK by successfully:

- ▶ Putting pressure on energy companies to charge customers using pre-payment meters the same tariff as those paying quarterly.
- ▶ Lobbying the immigration Minister to increase the financial support given to those seeking sanctuary in Britain.
- ▶ Encouraging employers, especially churches, to pay a 'living wage' – not just the minimum wage. This has lifted many employees out of poverty.
