Dear all,

We are grateful.

Grateful for the money but also grateful for what the money is a sign of.

We are grateful that members of the church have released their gifts of money to allow us a moments breathing space.

Our budgets like those of most charities have been trashed. The assumptions we made about hall lettings have proved incorrect. Hey it's a global pandemic!

There are many other assumptions which have proved totally true.

We assumed the members would continue to give.

We assumed there would be a gift day and it would be successful

These have proved correct.

We are grateful to God for being at work in us.

We assumed that what is happening to us matters to God.

We are grateful for all the range of ways in which people have stepped up.

Grateful for technology and people thinking of others.

If you have increased the amount of time you are praying for our church, thank you.

If you have increased your roles in our church or found a new way to do the old ones we are grateful.

If you have given money for the gift day we are grateful

Thank you, says God for allowing the spirit to flow....through your ears and eyes to your wallet.....to your behaviour.

Thank you.
